Your cat is going to be spayed or neutered today. The cost range is \$100-\$190. The prices includes Anesthesia, intravenous catheter, Spay or Neuter, Capstar, E-collar, and Pain Medication . If your female cat is pregnant, in heat or obese there is an additional charge of \$35.00.

We recommend a blood panel be run before the surgery to help detect any internal problems that may not be evident upon a physical examination. This process includes drawing a single blood sample. The cost of the recommended blood panel is \$49.00
Yes No

Your cat will be tested for the Feline Leukemia and Feline Immunodeficiency Viruses. The cost of this test is \$46. Please initial _____

Your cat will be given a medication for pain prior to surgery that will last 24 hours. Because your cat can not tell you when they are in pain we also recommend taking home additional pain medication. The medication would be in tablet form and cost between \$10.00 - \$15.00. Would you like us to prescribe this for your pet? Yes No

Would you like to have your pet's nails trimmed while under anesthesia? Yes No

Telephone number where you can be reached today _____

What surgery to be performed _____

Would you like an estimate of today's services? YES NO

Would you like to have your pet microchipped ? The cost is \$33.00 and includes lifetime registration. Yes No

We will administer a capstar pill to all pets entering the hospital. Capstar works for 24 hours and will kill any fleas on your pet or that may come in contact with your pet. Please initial here _____

I am the owner or agent for the above described animal and have the authority to execute this consent and authorization of the above named surgery(s), I understand that during the performance of the procedure(s), unforeseen conditions may be revealed that necessitate an extension of the foregoing procedure(s), or even different procedure(s), than those set forth previously. I hereby consent and authorize the performance of such procedure(s) as necessary and desirable in the exercise of the veterinarian's professional judgement. I have been advised of the nature of the procedure(s), as well as the risks involved, and also realize that results cannot be guaranteed. I additionally authorize the use of appropriate anesthesia, pathologist examination of excised tissue as deemed appropriate by the veterinarian, and the administration of other medications, and understand that hospital staff will be utilized as deemed necessary by the veterinarian. I have read and understand this authorization and consent.
